MESSAGE *from the* MANAGER

KEVIN JONES

General Manager, Lake Cherokee

A Season of Thanksgiving, Perspective, and Peace

Dear shareholders,

As we enter the month of November, we approach one of my favorite times of the year: Thanksgiving. It is a time when we are encouraged to slow down, reflect on our lives, and give thanks for the many blessings we sometimes take for granted. In the middle of our busy schedules, our responsibilities, and the many things that compete for our attention, it is easy to lose sight of just how fortunate we truly are.

I would encourage each of us to take a moment and consider the blessings we have been given. Many of us have a roof over our heads, food on our tables, dependable transportation, family and friends who love us, and the ability to enjoy the wonderful place we call home. We are not spending every day wondering how we will feed our children, whether we will be able to make our mortgage or car payment, or whether we must choose between purchasing needed medicine and putting groceries in the refrigerator. These are very real struggles for many people, including people in our own community, our state, and throughout our country.

That does not mean our own frustrations are never valid, nor does it mean we should ignore the things

that concern us. However, it does mean we should occasionally step back and ask ourselves whether the things consuming our time, energy, and emotions deserve the amount of attention we are giving them. Sometimes, a little perspective can make a tremendous difference in how we see the world around us.

We live in a time when people are quick to criticize, slow to extend grace, and often far more willing to point out what they dislike than to acknowledge what is going well. I believe we would all benefit from being a little kinder, a little more patient, and a little more thoughtful of what others may be carrying in their own lives. We never truly know the burdens someone else is facing, and a little kindness can mean far more than we realize.

One piece of advice I have shared before is that one of the simplest ways to restore a little peace in your life may be to step away from social media. I do not participate in it myself, and I honestly cannot imagine voluntarily subjecting myself to the constant stream of negativity, arguments, accusations, and outrage that seems to fill so much of it. It has to be mentally exhausting. There is a great deal of difference between being informed and allowing yourself to be consumed by every disagreement that appears on a screen.

I also remind myself, sometimes daily, that the loudest voices are not necessarily representative of the majority. That is an important lesson in life, and certainly one that applies to our lake community. It is easy to become discouraged when the same handful of names appear repeatedly criticizing decisions, questioning motives, or finding fault with nearly everything. But we must remember that what we see repeatedly on social media is not a reliable measure of how our entire community feels. There are many more residents and friends of this lake who quietly appreciate what we have, value the direction of Cherokee Water Company, and are thankful for the efforts being made to operate this business ethically, professionally, and responsibly. Their silence should never be mistaken for dissatisfaction.

As we approach Thanksgiving, my hope is that we spend less time searching for reasons to be upset and more time recognizing the good that surrounds us. Be grateful for your family. Be grateful for your health, your home, your friendships, and the opportunities you have been given. Check on a neighbor. Offer a helping hand. Speak words that encourage rather than divide. Give someone the benefit of the doubt. And when something does not go the way you would have preferred, consider whether it is worth sacrificing your peace over it.

God is good, and He has blessed each of us far more than any of us deserve, especially me. I am reminded of that often, and I know I have plenty of room for improvement in practicing the very things I am encouraging here. None of us gets everything right, and none of us is above learning to be more gracious toward others.

My prayer for this lake community is that we experience greater peace in our homes, greater kindness toward our neighbors, and a renewed appreciation for the blessing of living in such

a special place. We may not always agree, and we will certainly not always get our way, but we can choose to treat one another with dignity and respect. After all, we share far more in common than we sometimes allow ourselves to remember.

Now, to Address the Pink Elephant in the Room

As many of you know, I generally do not address CWC business matters through social media. However, since the discussion surrounding our new lake decals has continued for several weeks, I believe it is time to address the issue directly, clarify what actually happened, and hopefully put the matter to rest. It's actually sad that I am having to dedicate an entire article to this matter.

First, I do appreciate the few shareholders who have taken the time to call or visit the office to express their opinions about this change, even though most of the conversations I have had on the subject have been in opposition to my decision. I respect the fact that people have preferences and that not everyone will like every decision I make. That comes with the responsibility of managing a business, and I understand that.

Now, for the facts.

As I was preparing for the new fiscal year, working through the budget, contracts, and the many other responsibilities that come with running Cherokee Water Company, I began thinking about the thousands of dollars we were preparing to spend on new lake decals. I happen to be someone who appreciates change from time to time, so I thought, why not update the decal, give it a different look, and incorporate something that represents the place we all love?

So, I selected a different color, pink, which I understand may not be everyone's favorite, and replaced the Indian Chief head with a map of our wonderful lake. That is the entire story. There was no hidden agenda, no political statement, no attempt to change the identity of our lake, and certainly no secret meeting to surrender Cherokee Water Company to the national fashion police. I assure you, the outside world has plenty of problems to work on without needing to organize an intervention over our vehicle decals.

The decision was mine alone. The Board of Directors had nothing to do with the color, design, or decision to make this change. We are not changing

the name of Lake Cherokee, abandoning our history, or making some grand political statement. We are simply using a new decal design. Sometimes a decal is just a decal.

I have heard everything from accusations that the office has gone "woke" to suggestions that this is somehow the beginning of a name change. For those who have wondered, I can assure you that I remain firmly planted in my own beliefs and have not experienced a sudden political transformation as a result of ordering vehicle stickers. I suspect those who know me well are not losing any sleep over that possibility.

I also understand that some shareholders are upset because they were not given an opportunity to vote on the change. I want to respectfully remind everyone that Cherokee Water Company is a business, NOT a homeowners association, and very few operational decisions within a business are put to a shareholder vote. Part of my responsibility as General Manager is to make decisions regarding the day-to-day operation of this company.

And let's be honest: had we put the decal design to a vote, we likely would have received recommendations

for every color imaginable, multiple logos, several competing designs, and perhaps a few suggestions that we abandon decals altogether. We could have held a community-wide election, appointed a decal committee, scheduled public hearings, and spent the next six months debating shades of pink. Even then, someone would undoubtedly have been unhappy with the final selection because their preferred design was not chosen. Sometimes, leadership means making a reasonable decision and moving forward, even when that decision does not satisfy everyone.

I recognize that pink may not be your preferred color. That is perfectly fine. We all have different tastes, and I would never expect everyone to agree with my personal preferences. But I would ask that we keep this matter in perspective. This is a vehicle decal that most of us will rarely notice once it has been placed on our vehicles. It does not change the lake, the value of your property, the quality of our community, or the work being done to maintain and improve the place we all enjoy.

When I consider the many responsibilities, challenges, and decisions involved in managing Cherokee Water Company, I can assure you that the color of a vehicle decal ranks very low on the list of issues that will determine the future of this company. We have roads to maintain, infrastructure to protect, finances to manage, safety matters to address, and long-term decisions to make for the benefit of this community. Those are the things that deserve our time, attention, and thoughtful discussion.

I would also encourage those who remain frustrated to consider whether this issue is truly worth the anger and energy it has generated. You are entitled to your opinion, and you are welcome to disagree with my decision. However, disagreement does not have to become division, and a difference of opinion does not have to turn into a personal conflict. We can disagree respectfully, move forward, and still be good neighbors.

As a respectful reminder, we will continue to allow the normal grace period for shareholders to place the new decals on their vehicles. Once that period has passed, Lake Patrol will begin enforcing the decal requirement in accordance with our established

rules. Every shareholder has a choice in how they respond to this change, but knowingly disregarding the rules will, unfortunately, result in fines as provided for under those rules. I would hate to see anyone incur an unnecessary expense over something so small, particularly when a little cooperation would prevent it altogether. Please do not let stubbornness over a decal turn into a fine that could easily have been avoided.

I will close by returning to the message with which I began this article. We have so much to be thankful for, and we have a wonderful community worth protecting, not only through responsible management and sound financial decisions, but also through the way we treat one another. There will always be decisions we disagree with, changes we would not have made ourselves, and circumstances that do not go exactly as we would like. That is simply part of life.

My hope is that we can give one another a little more grace, extend a little more kindness, and remember that the person on the other side of a disagreement is still our neighbor. Let's spend less time looking for the next thing to criticize and more time appreciating the blessings we share. Let's be willing to listen, quick to forgive, slow to assume the worst, and generous with encouragement.

Life is too short, and our blessings are too great, to allow something as insignificant as a decal to steal our peace or divide a community we all care about. I am grateful for Lake Cherokee, grateful for the opportunity to serve this community, and grateful for the many shareholders who continue to support the work being done on their behalf.

May each of you and your families have a wonderful Thanksgiving filled with love, laughter, gratitude, and peace. May we never become so focused on what we dislike that we forget how much we have to be thankful for.

Respectfully,

Kevin Jones, GM

Board Meeting Minutes

MINUTES OF THE BOARD OF DIRECTORS

CHEROKEE WATER COMPANY

October 15, 2026

A meeting of the Board of Directors was held October 15, 2026. 6:00 p.m., at NK 20 Lake Cherokee, Longview Texas 75603 with the following Directors present:

Gary Mapes, President

David McDaniel, Vice President

Logan LoBue, Treasurer

Rhonda Bullard, Secretary

Ken Hall

Jeff Patty

Beth Swindell

Absent: Alan Kolemey, Mary Yoder

The meeting was called to order at 6:00 p.m. by President Mapes. President Mapes confirmed with Secretary Bullard that a quorum of the Board was present. Mapes called on Secretary Bullard for approval of minutes. Mrs. Bullard announced the Board minutes of September 17, 2026, had been electronically distributed to the Board of Directors. Hearing no additions or corrections, the minutes will be filed for audit.

President Mapes called upon Election Commission Chair Darrell Wolven to give the results of the 2027 Board Election. Mr. Wolven reported the Election Commission met on Friday, October 2, 2026. Two candidates applied for the three open Board positions; both met all required standards and therefore were certified by the Election Commission. In accordance with the Bylaws, the Election Commission voted to recommend to the Board of Directors that the election not be conducted and that the certified candidates (**Jon Traylor and Dan Lancaster**) be deemed elected as

Directors for three-year terms, to begin at the conclusion of the 2026 Annual Shareholders meeting November 12th.

Ken Hall made the motion for the Board to accept the Election Commission recommendation and elect Jon Traylor and Dan Lancaster as Directors. Rhonda Bullard offered the second and the motion passed unanimously. President Mapes recognized Jon Traylor in the audience and welcomed these new Directors.

General Manager Kevin Jones gave an overview of operations, displaying slides regarding maintenance and patrol operations, lot transfers, and permits. He reported that the road project in NQ to Hwy 2011 should be complete within the next 10 days. The Dam/Spillway repairs have been completed under budget. Manager Jones mentioned he will be meeting with TCEQ representatives for a dam inspection on October 26. He also announced the Longview Fire Department conducted diving and water rescue training on Lake Cherokee October 15, continuing to build strong relationships between LFD and CWC.

Treasurer LoBue reported that Monday 10-12-26 the board met to review the September 2026 financials and September expenditures. September is the final month of the 25-26 fiscal year. With the September financials included in the YTD financial performance compared to forecast, CWC will end the fiscal year with Operating revenue at 98.5% of forecast and Operating expenses at 95.5% of forecast (4.5% below budget). All departments of CWC were under budget on spending for the year. We appreciate the efforts of Kevin and his team to be fiscally responsible with our assets. With the review of the September 2026 financials complete, LoBue brought a motion to certify bills paid for the month of September. David McDaniel offered the second and the motion passed. Mr. LoBue also moved to approve the September 2026 financial report, David McDaniel offered the second and the motion passed.

David McDaniel reported the Rules & Policies Committee did meet and had four variances to bring for approval.

SL 69 is requesting a variance to add a boat stall and deck to an already existing nonconforming boathouse. The addition will not expand the nonconformity of the structure. David made the motion

to approve the variance; Logan LoBue offered the second and the motion passed unanimously.

ST 27 is requesting a variance for a fence height of 10 ft between ST 27 and ST 28. The slope of the lot requires a retaining wall between the lots, with 67' length of retaining wall and fence to be 10' in height. The fence will decrease to 4' height as it slopes toward the lake. Both neighbors signed off on the variance. The Committee recommended, and David made the motion, approving the variance request. Beth Swindell offered the second and the motion passed unanimously.

NE 28 is requesting a variance to place a carport cover over an existing concrete pad that is less than 50 ft to the lake road. (12') David made the motion to approve the variance; Rhonda Bullard offered the second and the motion passed unanimously.

NP 56 is requesting a variance for a new house and pool that will be less than 75 feet from the shoreline on the right-hand corner of the lot. (36'4") The Committee requested a detailed drainage plan due to the slope and natural drainage of the lot. The Committee is satisfied with the details provided and is recommending approval of the variance. David made

the motion to approve, Beth Swindell offered the second and the motion passed.

The Rules and Policies Committee had no further action items to bring before the Board.

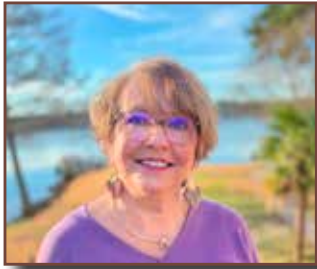

Infrastructure Committee Chair Logan LoBue reported that the committee met this month. Kevin provided an update on the progress of the current road project under way in the NQ to 2011 area. Committee discussed several road sections under consideration for the next phase of the road project. Other infrastructure topics such as the upgrade to access gates at the storage facilities and island, and the pier in front of the CWC offices, were also discussed. The committee did not have any actions to bring before the board.

With no other business, President Mapes, adjourned the meeting at 6:19 p.m.

Office Manager's Article

Cathy Hite

Shareholders,

I am happy to report that the 911 addresses have been added to the USPS system. The known corrections (incorrect county) have been corrected. Majority of the changes have been made to Google Maps and street signs are being made and hope to be installed in the next few weeks.

What's next for the North Side? If you have not entered a change of address with the Post office, it is recommended that you complete this. Also, review your location on Google Maps, Apple Maps and even Bing Maps. You may need

to correct the location of your house / driveway on these maps. If you need assistance, come by the office and we will do our best to assist you. If you notice incorrect street names or have any issues, please contact us and we will support you where possible.

Southside Shareholders, we are going to make a few changes to the process based on lessons learned from the Northside project. ETCOG has begun with the address assignments. They will be sending the new 911 addresses to the USPS in batches. We hope this will make the USPS process more efficient. When I hear from ETCOG they are ready to start the communications regarding the new addresses, I will send you an email to make you aware and next steps. There is nothing for you to do until you hear from me.

Change is hard. and usually not welcome. But it is necessary. Your support and patience is appreciated.

Cathy

Fall Survey - Electrofishing Summary

Introduction

On September 19th, 2026 we conducted our fall electrofishing survey for the year. In this survey we were able to evaluate the current status of the various sportfish and forage species present in Lake Cherokee while simultaneously removing several hundred pounds of undesirable and nonnative species. Below is a quick summary of what we saw, and the link to the detailed audio overview of the report now available on the shareholder portal.

Sportfish Data

Largemouth bass were collected during the survey, ranging in size from 5 to 20 inches in total length. Bass captured during the survey that were 10 inches or larger were weighed and evaluated for relative weight to determine overall body condition. Largemouth bass relative weights came in at 96% during the survey with a high number of bass coming in above the 100% body condition. Bass looked better during this survey overall, than any other survey to date. One of the biggest takeaways from this survey, which has been aligning with surveys in 2025 is that younger fish born into the system (10in or less) are in exceptionally condition. These fish are a strong indicator that better balance is being achieved and that big fish production potential is growing for the lake. There were still several severely underweight fish that brought down the overall average, but these fish were harvested from the lake. We encourage anglers to make these same decisions when catching extremely thin or underweight fish (see the full electrofishing report for visual comparisons). We did not collect many large crappie during this electrofishing survey, which is consistent with historical surveys. Crappie tend to be caught at the highest densities in the spring when fish push up shallow to spawn. Later in the year crappie tend to scatter across deeper portions of the lake, making them more difficult to collect in electrofishing surveys.

Forage Data

Gizzard and threadfin shad are still the two most abundant forage fish species present in the lake. Bluegill sunfish numbers appeared to be much higher in this survey than in any previous surveys on the lake. This is excellent sign of improving balance, that correlates strongly with better bass relative weights. Bluegill are the backbone of most bass fisheries and a strong population of bluegill helps support higher numbers of healthy bass. Redear collection rates were relatively comparable to recent surveys, with populations still significantly higher than before higher harvest rates were implemented.

Additional Species

There were several other non sportfish/forage fish species collected during the survey including: common carp (nonnative), bowfin, creek chub, smallmouth buffalo, and spotted gar. These fish were removed during the survey (totaling several hundred pounds) to free up biomass and reduce competition between these fish and more desirable species.

Management Outlook

Future management objectives are still consistent with historical advise: continue to harvest underweight sportfish (bass, catfish, and crappie) and remove undesirable species when caught. These management tools have showed significant improvements for fish quality in the lake over the last few years and will be important for long term success.

Please let us know if you have any questions about the survey or have trouble finding the full report in the shareholder portal.

Cherokee Fishing Club (CFC) News
November 2026

By Bryce Tawney - Treasurer

The October Meeting had 31 members and guests. With Pete feeling under the weather, Carol took charge and provided us with a wonderful meal of roast brisket au jus, with a side of ditalini pasta with peas and mushrooms! Cookie People who provided desserts and additional sides included Larry Willis, Logan Lobue, Gerald Lewis, Jimmy Don Jones, Randy Hudgins, David Wilson, and Anna O'Brien.

President Keith Hightower welcomed everyone to the meeting. He thanked Sunday set-up volunteers John Jaskiewicz, Jessica and Kyle Modisette, and Gary Lindsey, as well as tonight's clean-up crew of Larry Willis and David Wilson. CFC welcomed new member Nick Burnett. Guests attending our meeting included Cory Davis and Jus-

Cory Davis and Justin Williams from Jones Supply and Manufacturing

Bob O'Brien, Vice President, reminded us to bring non-perishable food items to the November 9th meeting CFC will deliver to Samaritan House in Tatum., Items needed include sugar, cake mixes, frosting, Jell-O, and chicken broth. Members can also check Samaritan House's Facebook page for the latest needs.

Treasurer Bryce Tawney provided the financial update for the month ended September and noted a member count of 135. He also mentioned that CFC will hold elections at the January 2027 meeting for Vice President, Treasurer, Tournament Director, and Hatchery Director. All members who attend our meetings and actively support our activities are prime candidates for the

CFC board. Interested members and incumbents should notify Keith if they want to run. The club distributed sign-up sheets for member volunteers to help with monthly meeting support and the bass tournament.

Gary Lindsey, Hatchery Director, reported that all brood ponds have had Bluegill and Bass fingerlings released. Ponds were refilled to benefit the tadpoles and maintain the biological health of the ponds. New fish feeders were received for use next Spring, and plans are to do some maintenance on pipe supports soon. Don Anderson has been keeping the feeders filled at the megastructure.

David Wilson, Tournament Director, noted the Bounty Bass contest for the Pride rod will end with the October 17 fall bass tournament. Dawson is still leading with a week to go.

John Jaskiewicz, Program Manager, introduced Cory and Justin from Jones Supply & Mfg. Cory and Justin noted their fishing tackle section continues to grow, and they can add new products as customers request. Jones' offerings

include a self-service 24-hour bait house (now with a terminal tackle vending machine), custom-built urchin bait storage boxes, metalwork for trailer repairs, and a discount program available to group-text members. Jones also generously donated a HUGE box of merchandise for tonight's raffle!

Congratulations to our Raffle winners this month: Tackle Gift Bags by Rod Diehl and Gary Lindsey; Jucy's Discount cards by Carol Staiti, Dylan Briscoe and Robin Walker; gas can by Max Vinson; fishing pliers by Robin Walker, ACC spinning reel by Nick Burnett; and the Mercury Oil Change kit by Tex Parker. Winners of the Jones Supply donated items included Bryce Tawney, Cary Small, Nick Burnett, Max Vinson, Jimmy Don Jones, Troy Parker, Anna O'Brien, Lee Scott, Randy Hudgins, and Tim Inman.

CFC members and any shareholders, privilege card holders, and CWC employees who would like to join or visit should mark your calendar for our next meeting on Monday, November 9th.

Lake Cherokee Groups and Clubs

We have several clubs that have been formed and led by Lake Cherokee Shareholders. You can find more information about these clubs in the Shareholder Portal. Key contacts with phone numbers are provided online in the Portal.

Preservation Club

Deanna Kalmus, President

Meetings are 3rd Thursday of each month following Board Mtg

Cherokee Fishing Club

Keith Hightower, President

Meetings are 2nd Monday at 7:00pm at CWC office

First Friends

Roxanne Lane-Brink/ Gail Fowler

Lunch 3rd Thursday of each month

Photography Club

Holly Treadway

Meetings 2nd Tuesday of each month

Bridge Club

Norvella Skarda

Play every Wednesday at 11:30 am at NK21

Lake Cherokee Community Foundation

Non-profit organization benefitting the community

More information:

www.lakecherokeecommunityfoundation.org

Friends of Freedom Park

Miguel Fabbiani and Barrett Newsom, Co-Chairs

An organization of volunteers who will manage the upkeep and ceremonies/activities at Freedom Park (where the Veterans Monument is located)

Lake Cherokee Photography Club

COME ONE, COME ALL to the November 10, 2026 Photography Club event when Deana Harkness will present her images and impressions of her recent trip to China. If you have never been, have an interest in, or have the desire to travel there in the future, it will be well worth your time. We will have Chinese eats and drink to provide a multi-sensory experience. We will meet at 6 PM at the lake office. All lake residents are invited. We hope to see you there.

3rd Annual Angel of Hope Remembrance Ceremony

December 6th | 9:00 a.m.

THE CHURCH AT LAKE CHEROKEE
11968 CR 2011, HENDERSON, TX

The public is invited to attend the 3rd Annual Angel of Hope Remembrance Ceremony, a gathering dedicated to parents, family members, and friends who grieve the loss of a child.

The ceremony will take place outdoors in the Angel of Hope Garden at The Church at Lake Cherokee and will last approximately 20 minutes. Attendees are encouraged to bring a white flower to place at the base of the angel statue in memory of their child. A limited number of flowers will be available at the event.

A list of children's names will be read aloud during the ceremony. Please provide the name of the child you wish to have remembered upon arrival.

The ceremony will be held rain or shine. In the event of inclement weather, it will move inside the church sanctuary adjacent to the garden.

Friends of Freedom Park Update

Freedom Park Memorial Bench.

A second black granite Memorial Bench now sits next to the existing black granite bench, facing the lake. Thanks to the support of donors who wanted to honor their veterans. One of those donors, Clairce Dotson, secretly had her husband's name added to the bench. "He's worked so hard to keep us a place out here for the kids and grandchildren to enjoy and he's still working. I wanted something that later when we're gone there's a memory of him there for future family." She and her family surprised Harold by taking him to the Park after dinner at T. Blancos. She said he was so moved and "loved seeing his name and knowing it would be here long after he's gone."

When you come to the Park, have a seat, enjoy the quiet and beauty of Lake Cherokee, and thank these men for their service! RT Campbell, Franklyn Grant Mapes, John T Smith, Bob G Wallace, Lawrence E Lahaie, Robert Staicer, Steve "Wolfman" Snider, Harold G. Dotson

Clairce and Harold Dotson (center in black shirts)

First Friends group donates \$2,000 to Freedom Park from their Cookbook sales.

L-R: Karen Franklin, Teresa Davis, Barret Newsom, Thomas White and Tracy Lasser.

Cheers to Our Generous First Friends and Future Yummy Meals!

Christmas is around the corner...and you know someone who needs the Lake Cherokee First Friends Cookbook! Thanks to First Friends for naming FFP as beneficiary of the proceeds from the sale of their Cookbook. At their September meeting, Barret Newsom (FFP President) and Thomas White (FFP Board Member) accepted a check for \$2000 from our First Friends. The Cookbook has countless recipes from our community and are still available - a great Christmas present! Special thanks to Teresa Davis and Karen Franklin for designing, editing and publishing the Cookbook, Tracy Lasser for ad collection and editing, Gail Fowler for being "protector of the books" and managing the money, and Holly Treadway for her patriotic front cover photo. This generous donation will go into FFP's general fund and be used for ceremonies, veterans' activities, future signage, and offsetting costs of future monuments. Please pick up a copy for yourselves...or loved ones who need some help in the kitchen. Contact Gail Fowler to get your copy (903) 720-0199.

UPCOMING EVENTS

Veterans Day Ceremony. On Wednesday, November 11th we will hold a Veterans Day Ceremony at Freedom Park. Like last year, we will have refreshments and a community gathering before the 5:00pm ceremony start time. Please join us in recognizing and remembering those who sacrificed for our country. More information will be emailed to those on our mailing list, posted on the FFP website and CWC Portal Group "Friends of Freedom Park".

Annual Membership Meeting. Sunday, November 15th will be our (first) annual membership meeting. Remember, if you donated in any way to the Veterans Memorial or Freedom Park, you are a member in 2026! Please join us in celebrating our first year as an organization and hear what we've done so far, and what we have planned for the future.

Freedom Pillars.

A new monument concept is solidifying. Freedom Pillars will stand at varying heights (5' to 7' high) and be triangular in shape. Two of the three sides of each pillar will face the lake and will display about 8 to 10 Veteran names on each side similar to the existing Wall of Honor. The third side will have a patriot quote or message. The benefit of the pillars is that we won't need 100 names to start the project. Each pillar would need 16 to 20 names to be complete and, when enough veteran names move onto the waitlist, we can add another pillar. Come to our November 15th Membership meeting to hear more about the Pillars.

Honor-A-Veteran Waitlist.

We have a waitlist of (currently) 35 veterans' names which Lake Cherokee residents wish to honor. If you would like to add name(s), then, as opportunities arise, we will contact you. Send Katheryn Johnston an email with the veteran's name and your contact information kac135975@gmail.com

AED

FIRST CALL 911

AED stands for Automated External Defibrillator. It's a portable electronic device used to deliver an electric shock to the heart of a person in sudden cardiac arrest to restore a normal heart rhythm. AEDs are designed to be easy for anyone to use, even without special medical training.

The AED uses voice prompts, lights and text to tell the rescuer the steps to take. AEDs may have two sets of pads — adult pads and child pads. For CPR, anyone 1 year or older who hasn't gone through puberty is considered a child. However, for defibrillation, make sure you use the adult pads for anyone 8 years or older. Follow these steps when using the AED: • Turn on the AED and follow the voice prompts. • Remove all clothing covering the chest. If necessary, wipe the chest dry. • Peel away the backing from the pads and attach the pads to the person's bare chest following the illustration on the pads.

There is a AED located on the wall between the women and mens restroom on the Island

**BEAUTIFUL NORTHSIDE
BUILDING LOT WITH OPEN WATER VIEWS**

Cherokee Cares Fund helps support Shareholders within the Lake Cherokee community who are facing challenges or hardships, with a mission to uplift neighbors in need by offering access to vital resources and compassionate assistance. This can be in the form of volunteer

assistance, professional services, or financial aid.

As funds are available, applications for assistance are considered by the LCCF Board of Directors or the Cherokee Cares Co-Chairs. If you know of shareholders who are experiencing age-related difficulties, physical or mobility challenges, or temporary financial crisis, contact Cherokee Cares Co-Chairs Christi and Jeff Traylor. (817-480-3369)

Neighbor Helping Neighbor

LCCF is 100% funded by donations. The link below will take you to the website for making donations or gaining information on the Cherokee Cares Fund. If every shareholder gave \$20, the fund would be able to care for neighbors who are in need.

LCCF also has information on the CWC Portal for easy access. If you would like to volunteer to help a Shareholder who can't maintain their lot, run errands for a Shareholder who is a shut in, or offer your professional services when needed, contact the Traylor's to join the list of volunteers who can be called from time to time.
